

High Power Laser Diode Modules

LaserBoxx HPE series

UV to IR
Laser Diode Modules

The LaserBoxx HPE series is a high power laser diode module offering excellent performance and reliability in a compact driver integrated laser head. It comes in free space multimode elliptical beam or with removable MM fiber coupling.

Multimode fiber coupling option

The ACX-FCMM option offers a cost-effective and compact way to couple the LaserBoxx beam into a multimode fiber. The coupling efficiency exceeds 80%.

Standard patchcord configuration :

- 0.22 numerical aperture,
- SMA connector,
- 2 m fiber length.

Other configurations are available on demand.

Custom capabilities:

- Wavelength selection
- Electro-mechanical shutter
- Wavelengths combiner
- External modulator
- Specific beam shaping

LBX series, Plug & Play Laser Diode

The heatsink is optional

P&P ControlBoxx

CDRH compliant

Optional heatsink for LCX series & LBX series

Optional air-forced heat sink for maximum ambient temperature of 38°C.
Including power supply.
